## Working Together /FAQ

**I gotta ask. What equipment do you shoot with?**  
I change my equipment based on the requirements of the shoot, but most of my work is shot on Canon 5dMk2 with L lenses. However, I love using film just as well as digital, I'll point-and-shoots can sometimes capture a moment better than a fancy camera. No matter what, I will be certain to use the best tool for the job. If you're into gear, let's talk!

**Will you travel? What will I have to pay you if you do?**  
Traveling is fun! Each situation is different, so contact me to discuss details.

**I'm on a tight budget, what can I do to work with you?**  
I'd love to hear about your needs, and in the event that we can't work together, I can make some good recommendations.

**Hey Puja, how long have you been taking pictures?**  
My high-school and college years were filled with portrait sessions with friends. Since moving to Seattle in 2005, I have photographed more than three-hundred weddings, concerts, events, and portrait sessions. It's mind-blowing to think that I've worked with so many people. I'm thankful for the variety of clients I've had; this diverse experience means I'm at ease in any situation, which means I can make you feel comfortable.
